Figures are in **bold** when the relative funding is higher than the relative success

Figure 1: Policy cycle of a prioritisation strategy (adapted from De Bosscher et al., 2011; De Peuter et al., 2007; Mihaiu et al., 2010)

Figure 2: Concentration ratios CR4 and CR8 and Herfandihl index of the sports funded in the sample nations: Olympic and non-Olympic sports (ranked by CR8)

Figure 3: Scatterplot of the CR8 values against the total national elite sport expenditures (from government, national Olympic Committees and national coordinated sponsorship).

Figure 4A: Scatterplot of the CR8 values (as a proxy of prioritisation) against the outputs (market shares 2012 cycle) in summer sports

Figure 4B: Scatterplot of the CR4 values against the outputs (market shares 2012 cycle) in winter sports
