Vision & Priority

- LTA Framework 2022-2030
- University Plan 2023-2024
- Delivery Models Project
- Digital Learning Transformation Project

1. Vision for 2030

The learning, teaching and assessment experience for all students at Sheffield Hallam University is characterised by a dynamic, in-person experience that is digitally enabled, and which supports learning while on campus and when accessing learning remotely. Our staff are skilled and confident in delivering an inclusive and flexible approach that ensures all students are included, know that they matter, can achieve their potential, and are able to contribute fully to the vibrancy of the University community.

Our applied teaching inspires and challenges our students. Co-created learning and teaching activities engage students within innovative spaces and provide opportunities for them to develop into confident, collaborative, world-ready citizens. Our students use and apply knowledge in critical and creative ways, contributing to society and transforming lives.

Strategic Themes

Leadership & Culture

Vision, leadership at all levels, governance, communication, setting tone and ambition, providing support.

Infrastructure

Underpinning processes, policies, and physical or digital infrastructure.

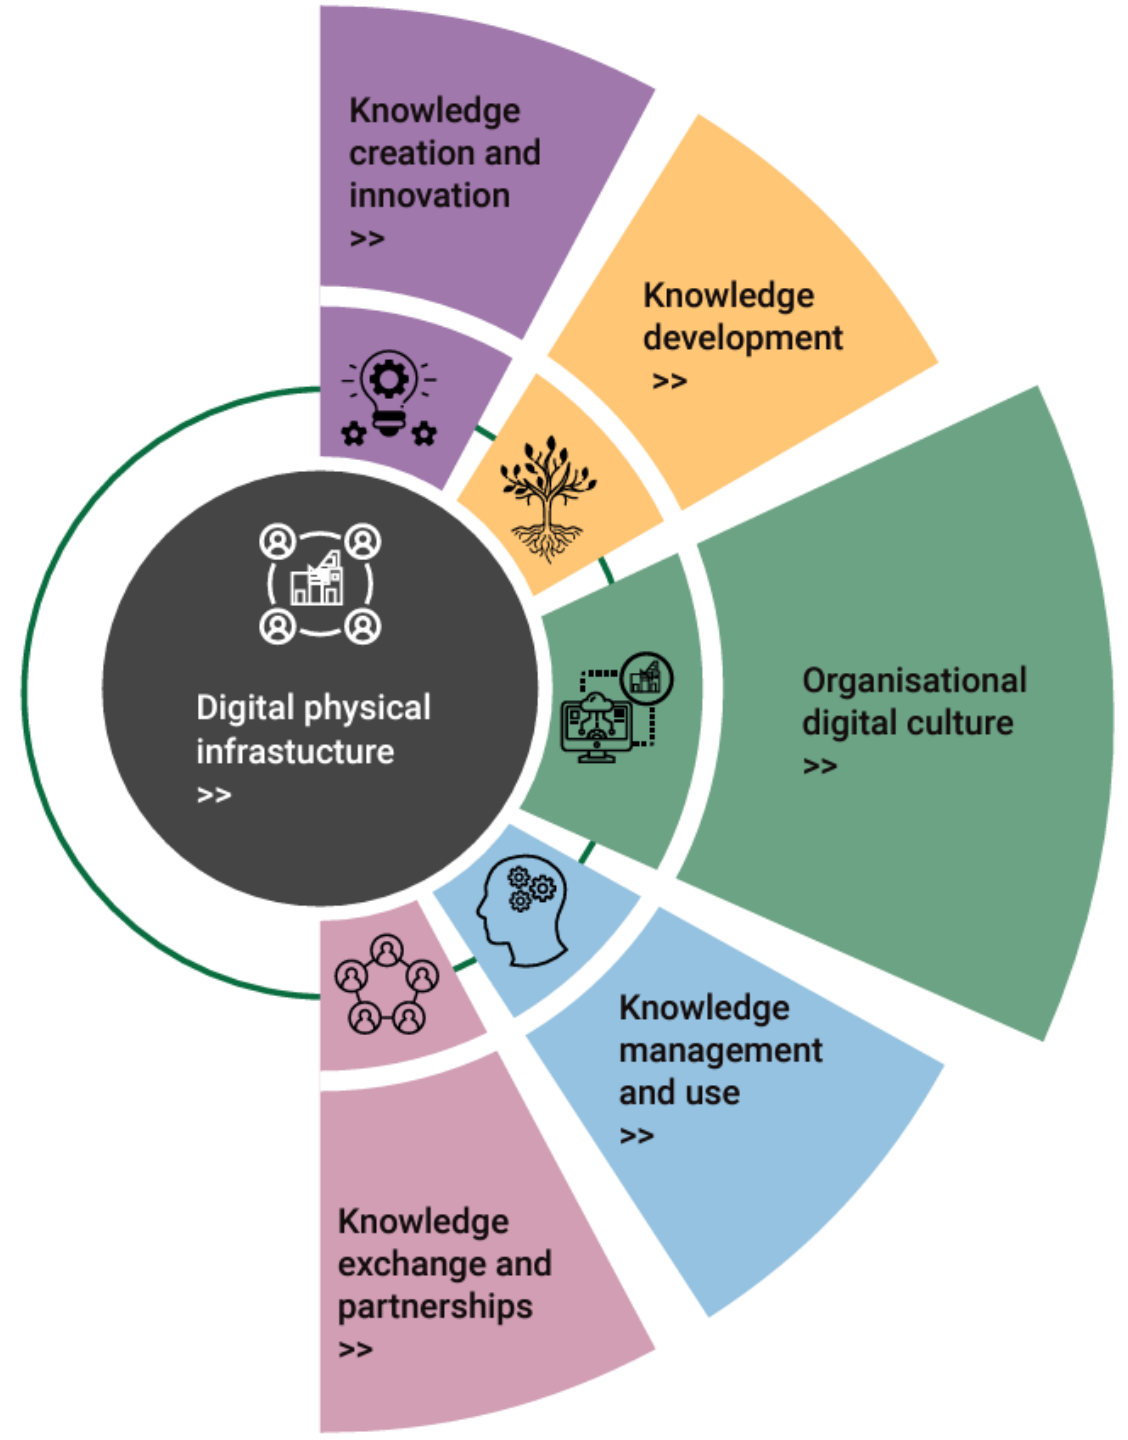

Digital Capabilities

Developing digitally proficient and productive students and staff who are critical, creative, and resilient digital practitioners.

Digital LTA

Targeted bespoke development for digital curriculum design and pedagogy in the use of digitally enhanced learning.

Jisc Digital Transformation

THANK YOU!
