'MAKING A MAP IS A WAY TO HOLD A DOMAIN STILL FOR LONG ENOUGH TO BE ABLE TO SEE THE RELATIONSHIPS BETWEEN THE VARIOUS APPROACHES, METHODS, AND TOOLS. MAPS ARE GOOD FOR VISUALIZING RELATIONSHIPS.'

Sanders (2008) An evolving map of design practice and design research

*FOUR FIELD APPROACH
THARP AND THARP
(2009)*

COMMERCIAL DESIGN

The primary driver
is to make money.

RESPONSIBLE DESIGN

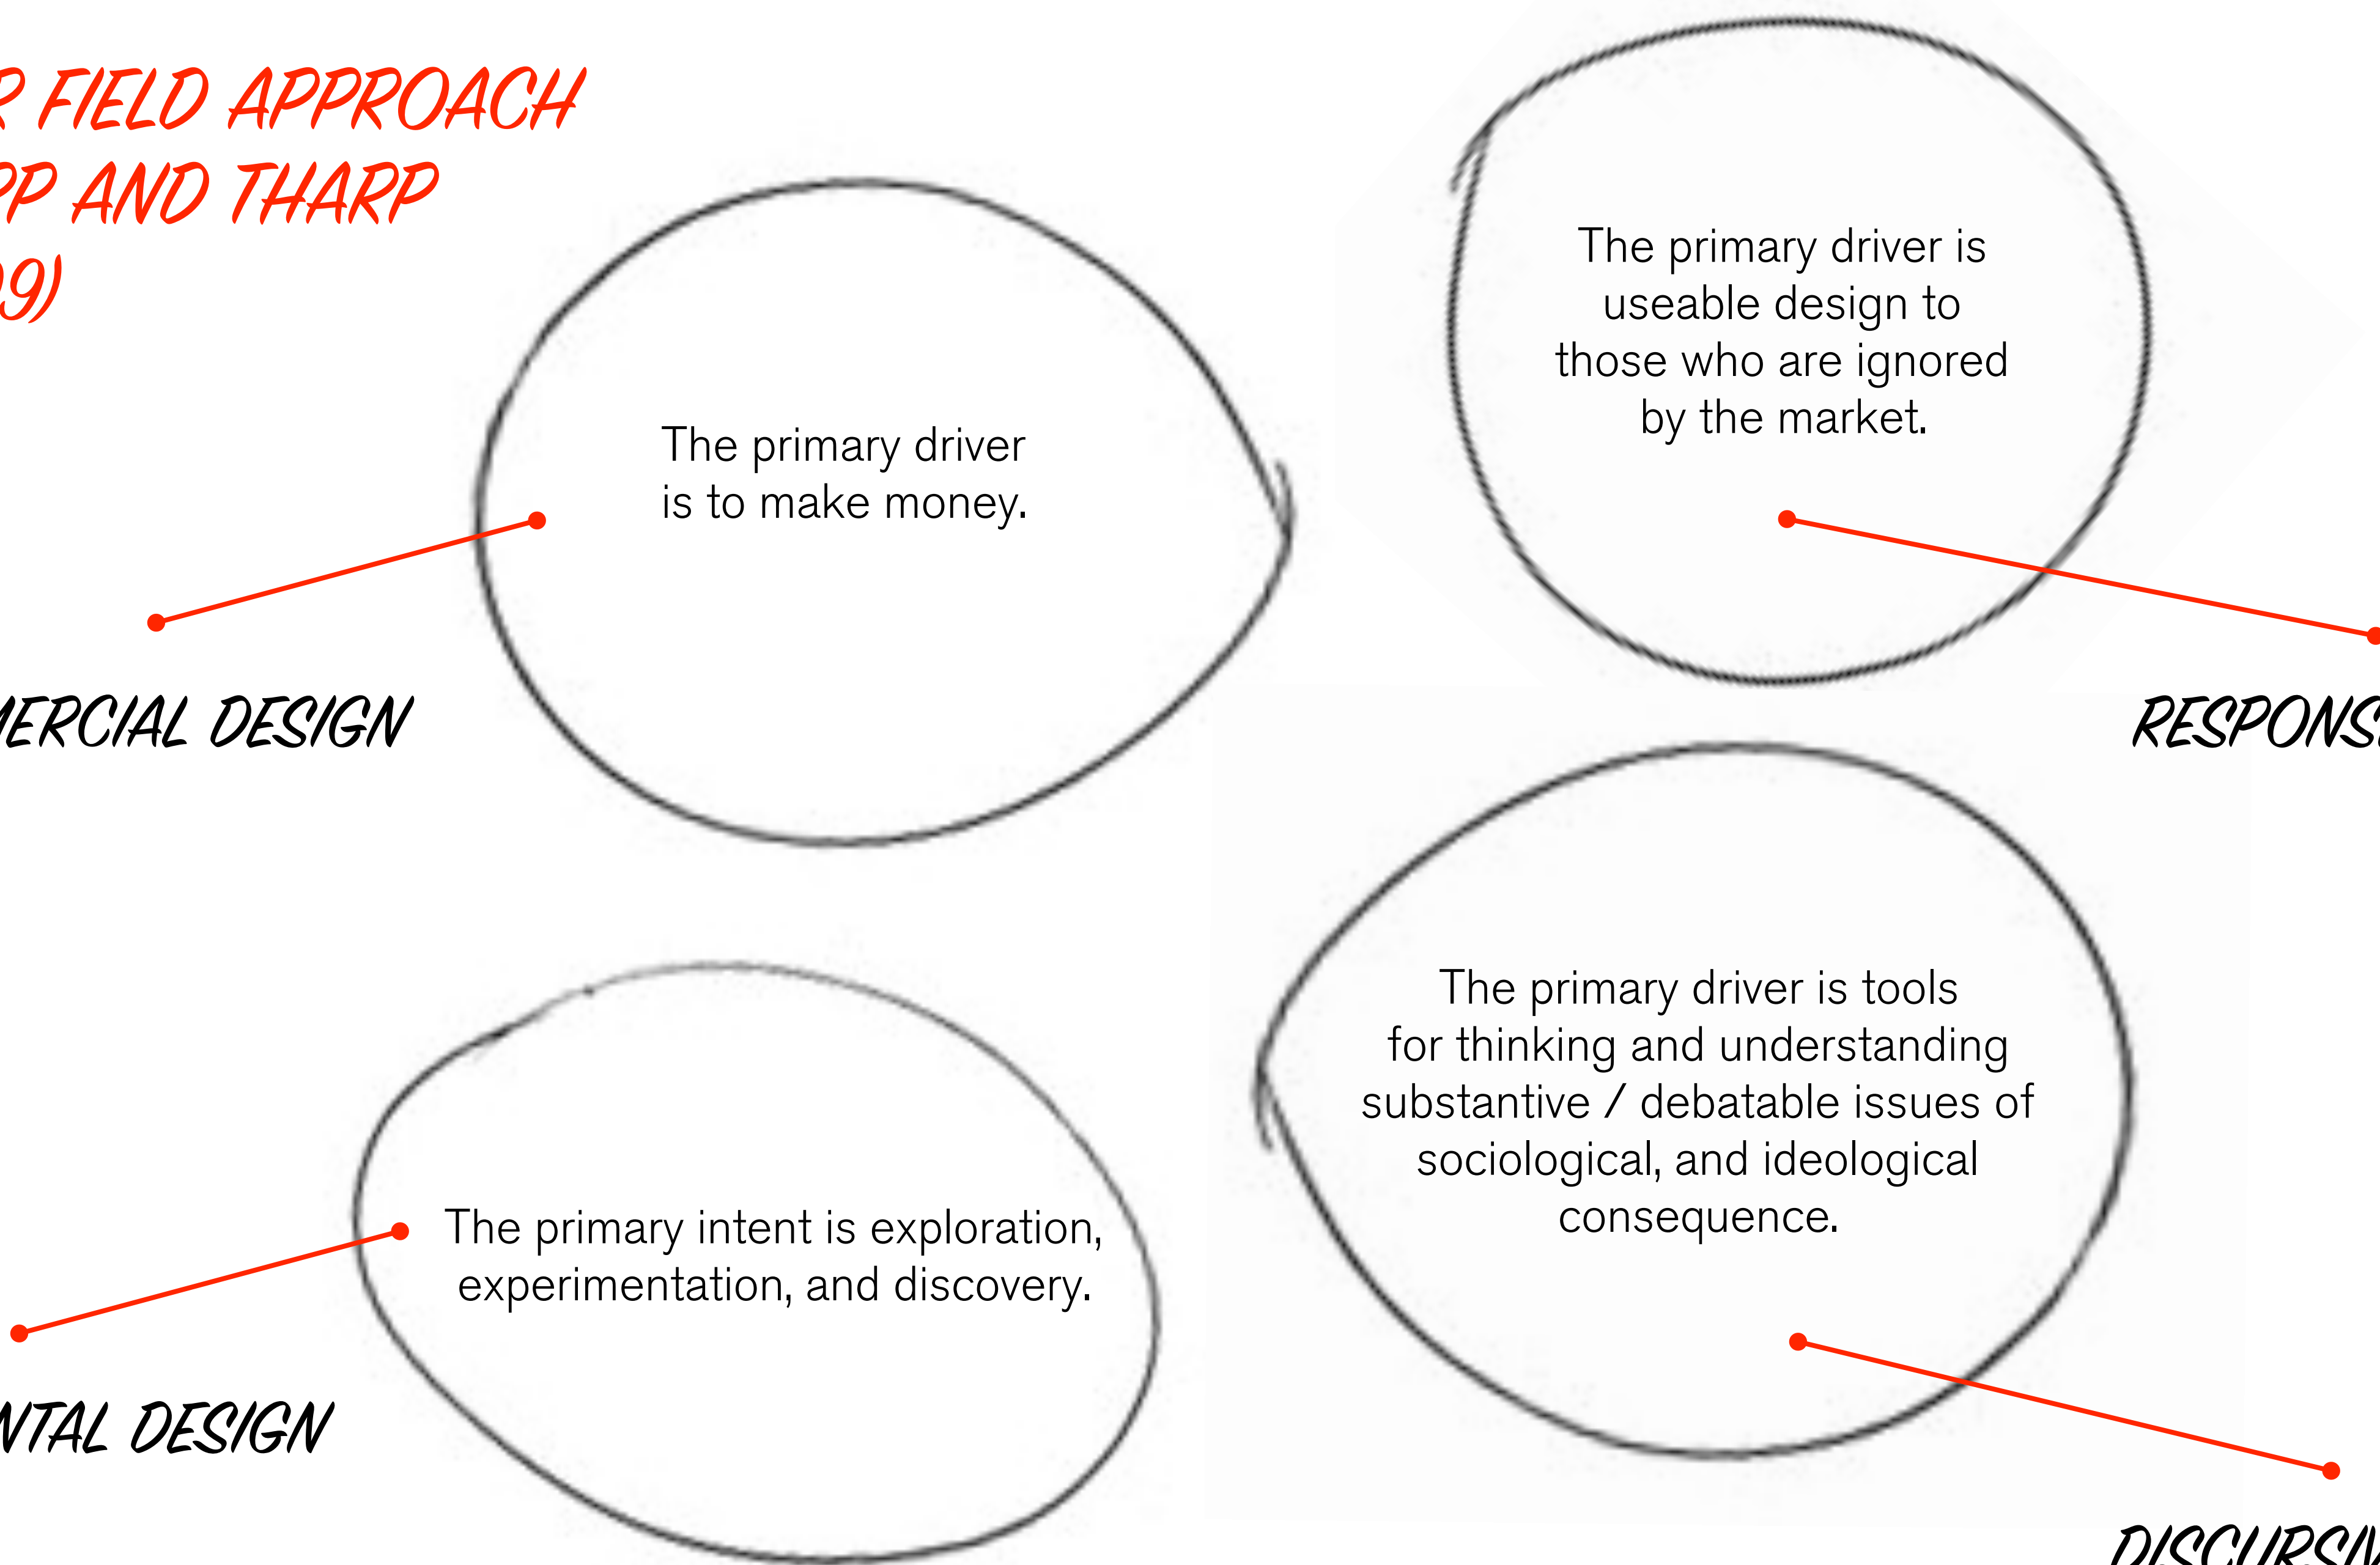

The primary driver is
useable design to
those who are ignored
by the market.

DISCURSIVE DESIGN

The primary driver is tools
for thinking and understanding
substantive / debatable issues of
sociological, and ideological
consequence.

EXPERIMENTAL DESIGN

The primary intent is exploration,
experimentation, and discovery.

personal

AT FIRST I WAS COMPLETELY OVERWHELMED,
I REMEMBER WHEN YOU SHOWED THE EXAMPLES AND
I JUST THOUGHT 'WHAT ON EARTH IS THIS?' AND I
THINK, TO BE FAIR, THAT'S WHAT THE REST OF US
WERE LIKE AS WELL

AT THE START IT WAS REALLY CONFUSING AND THE
IDEA OF PUTTING THINGS ON AN AXIS AS WELL WAS
REALLY PUZZLING. BECAUSE OBVIOUSLY WE'VE NEVER
REALLY, WELL PROBABLY WE'VE NEVER REALLY
THOUGHT OF THINKING ABOUT GRAPHICS LIKE THAT.

Map of Graphic Design Practice

Alan Watts
2019

Responsible

Discursive

Commercial

Responsible design is what is done in order to create a better world. It is a design that is not just for the sake of the design, but for the sake of the world. It is a design that is not just for the sake of the design, but for the sake of the world. It is a design that is not just for the sake of the design, but for the sake of the world.

Discursive design is what is done in order to create a better world. It is a design that is not just for the sake of the design, but for the sake of the world. It is a design that is not just for the sake of the design, but for the sake of the world. It is a design that is not just for the sake of the design, but for the sake of the world.

Experimental design is what is done in order to create a better world. It is a design that is not just for the sake of the design, but for the sake of the world. It is a design that is not just for the sake of the design, but for the sake of the world. It is a design that is not just for the sake of the design, but for the sake of the world.

Commercial design is what is done in order to create a better world. It is a design that is not just for the sake of the design, but for the sake of the world. It is a design that is not just for the sake of the design, but for the sake of the world. It is a design that is not just for the sake of the design, but for the sake of the world.

Design Practice is a map of the various ways in which designers can practice their craft. It is a map that is not just for the sake of the design, but for the sake of the world. It is a map that is not just for the sake of the design, but for the sake of the world. It is a map that is not just for the sake of the design, but for the sake of the world.

Design Practice is a map of the various ways in which designers can practice their craft. It is a map that is not just for the sake of the design, but for the sake of the world. It is a map that is not just for the sake of the design, but for the sake of the world. It is a map that is not just for the sake of the design, but for the sake of the world.

Design Practice is a map of the various ways in which designers can practice their craft. It is a map that is not just for the sake of the design, but for the sake of the world. It is a map that is not just for the sake of the design, but for the sake of the world. It is a map that is not just for the sake of the design, but for the sake of the world.

Design Practice is a map of the various ways in which designers can practice their craft. It is a map that is not just for the sake of the design, but for the sake of the world. It is a map that is not just for the sake of the design, but for the sake of the world. It is a map that is not just for the sake of the design, but for the sake of the world.

Design Practice is a map of the various ways in which designers can practice their craft. It is a map that is not just for the sake of the design, but for the sake of the world. It is a map that is not just for the sake of the design, but for the sake of the world. It is a map that is not just for the sake of the design, but for the sake of the world.

"I THINK IT HELPS US, AND THIS IS GOING TO SOUND REALLY CRINGEY, GROW AS A DESIGNER BECAUSE WE'RE ACTUALLY THINKING MORE ABOUT WHAT WE'RE DOING RATHER THAN JUST CREATING FOR THE SAKE OF CREATING"

FIELDS OF GRAPHIC DESIGN PRACTICE

"BEFORE DOING THIS MAP, I DID JUST LOOK A PIECE OF DESIGN AND NEVER REALLY. IT'S ALWAYS THERE IN THE BACK OF YOUR MIND 'WHY HAS IT BEEN DOING LIKE THAT?' BUT I NEVER REALLY QUESTIONED DESIGN IN A WAY 'SO THAT'S BEEN DONE LIKE THAT BUT WHY HAS IT BEEN DONE LIKE THAT?' AND THIS WHOLE MODULE HAS CHANGED, WITHOUT SOUNDING TOO CHEESY, HAS CHANGED THE WAY THAT I LOOK AT DESIGN"

ACTOR-NETWORK THEORY

A SOCIO-MATERIAL APPROACH

ACTOR-NETWORK THEORY: A THEORY, APPROACH, METHOD, SENSIBILITY, AND/OR TOOLKIT.
(CALLON, LATOUR, LAW)

'...HOW THE MATERIALS OF THE WORLD (SOCIAL, TECHNICAL, DOCUMENTARY, NATURAL, HUMAN, ANIMAL) GET THEMSELVES DONE ' (LAW 2008, 632)

ACTOR-NETWORK THEORY

OBJECTS CAN INVITE HUMAN ACTORS INTO A WAY OF DOING OR BEING

PERMITTING AND PROHIBITING

PERFORMED THROUGH HUMAN-THING PARTNERSHIPS (THOMPSON 2015)

TRANSLATION

'THE PROCESS BY WHICH AN ACTOR JOINS A NETWORK IS SEEN AS AN ACT OF "TRANSLATION": MEANING A DISPLACEMENT FROM ONE STATUS TO ANOTHER'

(CALLON 1986).

SOME PROVISIONAL DESCRIPTIONS OF MAPPING AS TRANSLATION

PROJECTS THAT (PER)FORM

YES, IT WAS LOOKING AT THEM FROM MORE OF A
POINT OF VIEW 'OH THAT LOOKS NICE.' [THEN]
LOOKING AT IT SAYING 'YES, THAT LOOKS NICE
BUT WHY DOES IT LOOK NICE? WHY IS IT DONE
IN THAT WAY?'

PROJECTS THAT (PER)FORM

YOU'VE GOT TO LOOK AT IT MORE, YOU CAN'T
JUST READ THEM FOUR LINES AND GO 'RIGHT
THAT PROJECT GOES THERE' [...] YOU WOULD
HAVE TO LOOK MORE INTO IT TO BE ABLE TO
PLOT IT

PROJECTS THAT DON'T JUST DO WHAT THEY'RE TOLD TO DO

I THINK THAT IT'S MADE ME UNDERSTAND GRAPHIC DESIGN IN A DIFFERENT WAY. I THINK I ORIGINALLY JUST THOUGHT IT'S PERSONAL OR COMMERCIAL, YOU KIND OF DO THINGS BECAUSE YOU HAVE TO. WHEREAS WHEN YOU START LOOKING INTO SOME OF THE PROJECTS THEY JUST CHALLENGE, THEY ASK QUESTIONS, THEY DON'T JUST DO WHAT THEY'RE TOLD TO DO, KIND OF THING.

MAPPING GIVES PERMISSION

JUST LIKE ANSWERING A BRIEF THAT YOU'RE GIVEN. WHEREAS NOW DESIGNERS CAN CREATE A BRIEF BECAUSE THEY WANT TO CHANGE SOMETHING AS OPPOSED TO JUST PRODUCING A LABEL FOR A COKE BOTTLE.

PROJECTS ARE MOBILISED

I THINK IT'S DEFINITELY YOU FEEL SOME SORT OF PRIDE, OR SUCCESS KIND OF THING, BECAUSE YOU FEEL LIKE, WHEN YOU LOOK AT THE OTHER PROJECTS THEY'RE ALL IN THE REAL WORLD AND IT MAKES YOU THINK 'THIS IS JUST A UNIVERSITY PROJECT BUT COULD IT ACTUALLY BECOME IN THE REAL WORLD?' I THINK THAT'S WHERE THE PRIDE COMES INTO IT, YOU'RE DESIGNING SOMETHING JUST FOR A GRADE, YOU'RE DESIGNING SOMETHING THAT'S GOING TO MAKE YOU BETTER AS A DESIGNER AND SOMETHING THAT'S GOING TO BE THERE IN THE REAL WORLD AND I THINK PUTTING IT NEXT TO OTHER PROJECTS THAT ARE OUT THERE NOW GIVES YOU A SENSE OF BELIEF I THINK.

OTHER ACTORS AT WORK

YES, I THINK IT CHANGED MY OWN PROJECTS AS WELL, LOOKING AT MY OWN PROJECTS IN A BIT OF A DIFFERENT WAY, LIKE WHAT WAS I ACTUALLY SETTING OUT TO ACHIEVE? I THINK IF YOU HAD ASKED ME BEFORE WE HAD DONE THIS I THINK I'D HAVE JUST SUMMED IT UP IN ONE WORD, EASY. WHEREAS NOW THERE'S LOADS OF DIFFERENT THINGS THAT I COULD PUT TO IT. IT'S ASKING QUESTIONS, IT'S --

OPENED UP

I ALREADY KNEW THAT GRAPHIC DESIGN WAS PRETTY SORT OF BIG, BUT IT'S WHEN YOU TAKE EACH PROJECT ONE-BY-ONE AND REALLY LOOK INTO IT AND YOU THINK, I THINK THAT'S WHEN I REALISED THAT THERE WAS A LOT MORE TO IT THAN IT JUST BEING A LOGO. SO IT SORT OF OPENED MY MIND A BIT.

CONCLUSIONS

MAPPING ENACTS DIFFERENT POSSIBILITIES FOR DESIGN

FROM THINGS WITH FORM TO THINGS THAT PERFORM

*'DISPLACES STATUS' FROM UNIVERSITY PROJECTS TO THINGS
THAT MIGHT 'BECOME'*

*IT DISASSEMBLES A SEALED ENTITY OF GRAPHIC DESIGN
(MAPPING REQUIRES A RE-ASSEMBLING)*

PERFORMS AN EXPANSION

'MAPPING IS NEITHER SECONDARY NOR REPRESENTATIONAL BUT DOUBLY OPERATIVE: DIGGING, FINDING AND EXPOSING ON THE ONE HAND, AND RELATING, CONNECTING AND STRUCTURING ON THE OTHER. THROUGH VISUAL DISCLOSURE, MAPPING BOTH SETS UP AND PUTS INTO EFFECT COMPLEX SETS OF RELATIONSHIPS THAT REMAIN TO BE MORE FULLY ACTUALIZED.'

"...LIKE AN OPERATING TABLE, A STAGING GROUND OR A THEATRE OF OPERATIONS UPON WHICH THE MAPPER COLLECTS, COMBINES, CONNECTS, MARKS, MASKS, RELATES AND GENERALLY EXPLORES. THESE SURFACES ARE MASSIVE COLLECTION, SORTING AND TRANSFER SITES, GREAT FIELDS UPON WHICH REAL MATERIAL CONDITIONS ARE ISOLATED, INDEXED AND PLACED WITHIN AN ASSORTMENT OF RELATIONAL STRUCTURES."

(CORNER 1999: 215)
