The Anomalous Research & Exploration Forum

The Inaugural AREF Conference

April 27-28, 2024

The **Anomalous Research & Exploration Forum's** inaugural conference is committed to elevating the importance of rigorous research in understanding the UFO/UAP phenomena. It showcases the outstanding work of top researchers, scientists, academics, and journalists advancing our understanding of this intriguing subject.

This conference, hosted by Disclosure Team's Vinnie Adams, will be an incredible weekend of Anomalous Research and Exploration featuring; Danny Sheehan, Avi Loeb, Beatriz Villarroel, Graeme Rendall, Chris Sharp, Carl Andreasen, Dr. David Clarke, Richard Dolan, and Michael Schratt.

Abstract

'The Calvine Photographs: The Story So Far'

Dr. David Clarke and Andrew Robinson

Centre for Contemporary Legend, Sheffield Hallam University.

In this one hour talk Dr David Clarke will explain the investigative journalism which led to his discovery and publication of the only extant photograph of the infamous Calvine UFO sighting which took place on the moors above Calvine, a small hamlet, just north of Pitlochry in the Scottish Highlands in the Summer of 1990.

Photographic specialist Andrew Robinson will explain his original analysis of the photograph and provide details of his subsequent study of the case explaining what evidence can and can't be gleaned from the image. David and Andrew will also consider the theories concerning the image and possible explanations of the unidentified object which have been shared on Social Media, along with attempts to locate the photographer named as 'Kevin Russell' and share their thoughts on the most likely explanation of the image.

Dr David Clarke is Associate Professor at Sheffield Hallam University.
