Course Leader for BSc Computer Science, BSc Computer Science with AI & BSc AI and Robotics at Sheffield Hallam University | Student Employability | Promoting Social Mobility

Crafting a professional yet concise profile

+About Section

About

Course Leader for Sheffield Hallam University's popular BSc Computer Science and BSC Computer Science with AI, as well as our NEW BSC AI and Robotics course. Promoting employability and social mobility opportunities for our students. Forging and maintaining strong links to business to ensure the courses we deliver are relevant and fit for purpose.

20 Years experience of solutions development and innovative leadership in the IT industry.

Previously managed a team of highly skilled, technical experts in a wide field of products. Now helping the next generation of IT professionals gain skills and experience to allow them to deliver world beating solutions.

Worked on a number of large web projects based mainly within the MS family of products, including the design, implementation and day to day administration of the organisation's web instances, databases and CRM. Heavily involved in project realisation and delivery of a reliable IT resource, that is vital to the smooth running of any organisation. Technical skills in Office 365, SharePoint Online, IIS, MS SQL, Dynamics CRM.

Specialising in web accessibility and usability.

Responsible for the initiation and continued development of the successful student placement/mentoring project in conjunction with colleagues at Sheffield Hallam University.

Previously experienced in Management, Employability, SCARF, HR, performance improvement, as well as ILM, FIM, MIIS, IIS, SharePoint 2013 + 2010, MOSS 2007, SPS 2003, MCMS 2002, C#, ASP .NET, web development, Process Analysis, efficient retooling, staff mentoring and professional development.
